

Brown Paper Bag Beaver

[Access French Craft](#)

MATERIALS

Brown Paper Bags (501-160)

Markers (706-437)

Construction Paper - Assorted Colours
(500-350AST)

Scissors (707-500)

Glue (640-150)

INSTRUCTIONS

1. Trace and cut out construction paper pieces to create your patriotic beaver, using our free printable template.
2. Take the paper cut-outs for the beaver's eyes (smaller dome and the larger dome) and glue them to each other, lining up the straight edges of the eye pieces before pressing them together.
3. With the open side down and the folded flap facing up, glue the beaver's eyes to the top of the brown paper bag.
4. Next, take the cut-out beaver nose and glue it right under the beaver's eyes.
5. Under the bottom flap of the brown paper bag, glue the beaver's cut-out teeth in the middle.
6. Take the two paper cut-outs for the beaver's ears, and glue them diagonally over the left and right top corners of the brown paper bag.
7. Then take the two cut-outs for the beaver's arms and glue them to the gusseted sides of the brown paper bag.
8. Take the cut-out for the beaver's tail and decorate one side of it.
9. Turn the paper bag over and glue the decorated beaver's tail to the bottom of the paper bag, with the decorated side facing down. The decorated tail should be facing the same way as the beaver's face.
10. Turn the paper bag over and glue the cut-out pieces of the Canadian flag to the beaver's tummy.
