INSTRUCTIONS

1. Start by cutting the yarn into threads. The length of the yarn depends on the width of your paper roll. Start with cutting 1 thread and trying it out until you find the perfect length.
2. Cut the paper roll into a thin ring, about 3/4 of an inch.
3. Fold the yarn in half and place through the paper roll hole. Take the part of the end of the yarn with the loose ends and pull through the loop of the yarn over the paper roll. Pull tight to create a knot.
4. Repeat this scenario until you have the paper roll covered with yarn.
5. Push the yarn through the paper roll. Easy Peasy and Fun found it easier to twist all the threads and push them through.
6. Roll a small ball of tissue paper and push it into the paper roll to give you the perfect hat shape while keeping the yarn in place.
7. Finally tie a knot around the threads to get a hat shape and then trim the pom pom to a nice shape.
8. You can take this craft further to create an ornament by tying some yarn under the pom pom of the hat to make a loop.
