707-154 8 per set

White Tempera Paint

707-150WHT each

Black Tempera Paint

707-150BLK each

Junior Flat Paintbrushes

621-006 36 per pack

1. Begin by cutting the paper plate in half to get a watermelon shape.
2. Paint the edge of the plate green for the rind of the watermelon, then the middle layer white, and the center pink.
3. Paint black spots for the watermelon seeds. Let it dry.
4. Take a craft stick and add some glue to the tip. Glue to the bottom middle of the watermelon.
5. Enjoy your fan on a nice, hot summer day!
