

LUNAR NEW YEAR CRAFT: PAPER FORTUNE COOKIES

paper fortune cookies

AVRON.CA

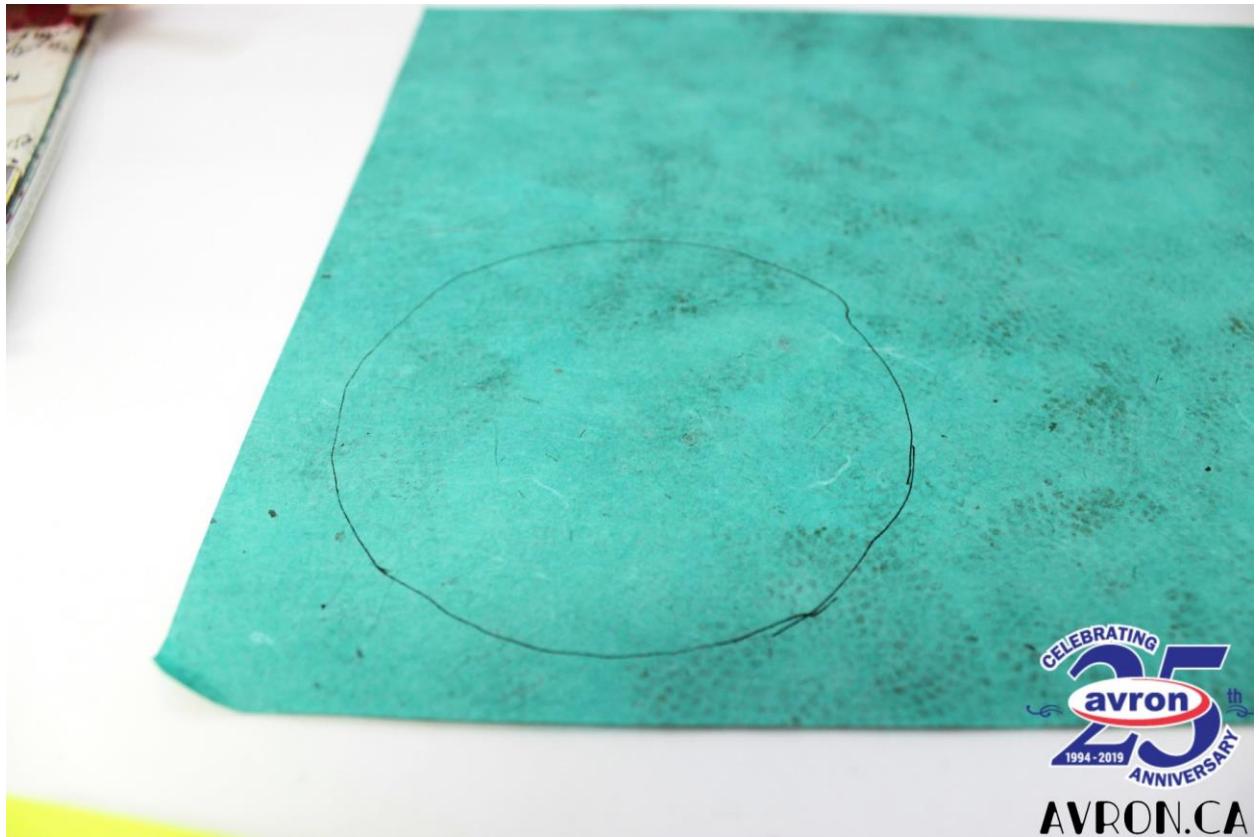

These adorable paper fortune cookies are sure to please anyone who receives one. This very easy and simple paper craft always come out amazing no matter what paper you use. All products listed could be found on the Avron website, and will be linked below as well.

You will need the following items:

- [Handmade Lokta Flowers - Paper](#)
- [Double-Sided Stamp Tape](#)
- [Scissors](#)
- Any object with a round bottom, or a compass to draw a circle

With this craft, you can utilize various types of paper; construction paper, lokta paper, scrapbook paper, the choice is yours. Handmade Lokta Craft Paper was our choice because of the beautiful designs offered.

1. With your circular object or compass, trace and cut out a 4 inch circle. We used a roll of tape to trace out a circle.

2. Fold your circle in half, with the paper design on the inside.

3. Unfold your circle, and place it down so that the crease you created is running horizontally. (from 9 o'clock to 3 o'clock) Place some stamp tape at 3 o'clock.

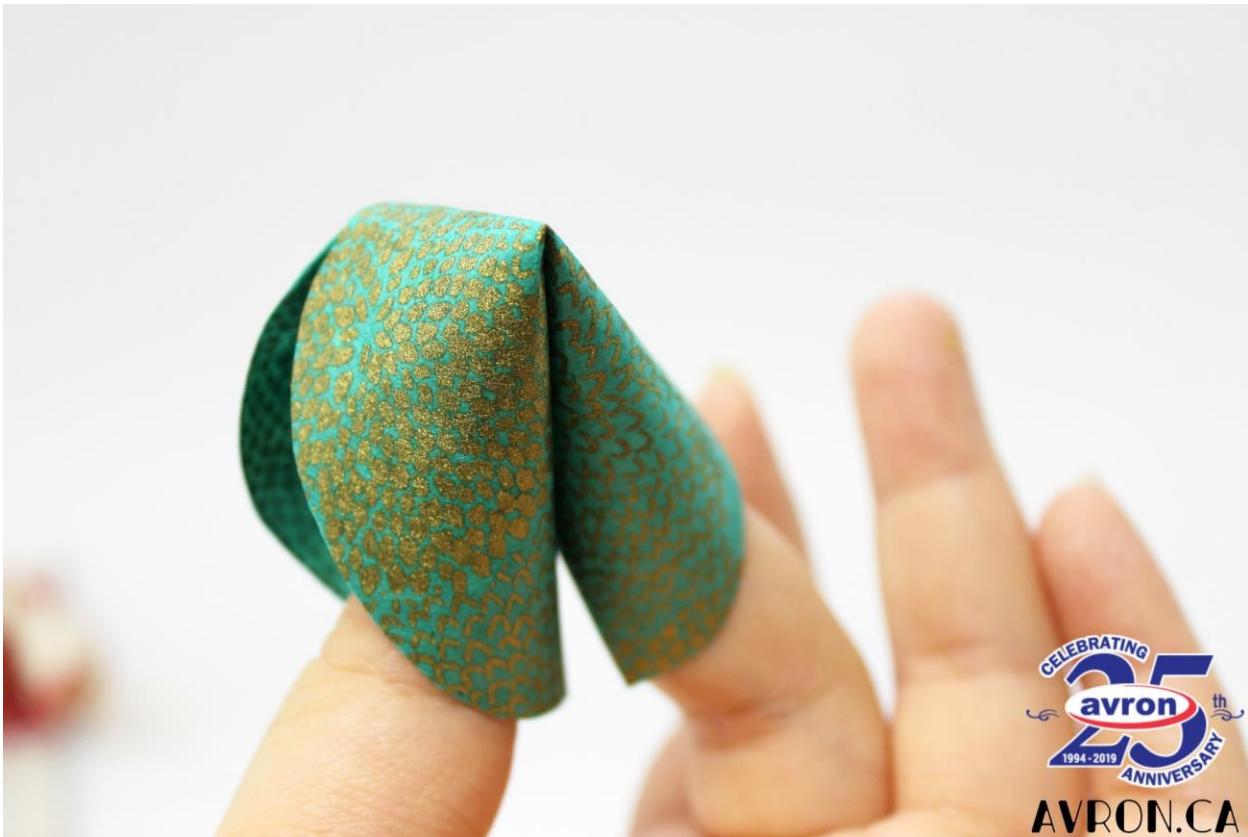

AVRON.CA

4. Fold over the left side and press down onto the stamp tape you just placed. Don't flatten the paper, but keep it open so it looks like a taco.

5. Press down gently on the crease that was made. Place some stamp tape above the crease.

6. Bring the two ends of the taco together by folding in half where the crease was made. Do not flatten it. Pinch the two ends and press firmly, so the tape can adhere to both sides and bring it to a fortune cookie shape. The top portion of the fortune cookie should still remain round and not be flattened.

7. You should now have your fortune cookie shaped! The next step is to cut a strip of paper, so you can add a message or a name. Add some stamp tape to one end and stick it inside of the cookie.

Probably one of the easiest paper crafts you can do, but it definitely has that adorable wow factor!
