Lunar New Year Craft: Dancing Dragon

[Access French Craft](#)

MATERIALS

Construction Paper Assorted Colours

(500-300AST)

Scissors (502-130)

6" Paper Plates Uncoated (115-520-10)

Primary Tempera Paint Set (707-153)

Paint Brushes (621-006)

Mixed Feathers (506-670)

Craft Sticks (506-881)

Wiggle Eyes (610-201)

School Glue (640-150)

Glitter Glue (704-052)

INSTRUCTIONS

1. Take 1 paper plate and fold it in half. With the paint colour of your choice, paint the paper plate, leaving the middle of the inside of the folded plate red, so it can be the tongue/ mouth of the dragon. Leave it aside to dry. Paint the 2 craft sticks which will be used to hold up the dragon. Let them dry.
2. Using construction paper, cut out 2 semi circles, which will be used as eyes for the dragon. Glue a wiggle eye each to the semi circles. Cut 2 smaller semi circles which will be used as the nostrils. Attach these to the top part of the folded plate. Leave to dry.
3. Using white construction paper, cut out teeth for the dragon, and glue it inside the dragon's mouth.
4. Take a couple of feathers, and glue them on the head of the dragon.
5. Take 1 of your painted craft sticks, and glue one end to the dragon head. Stick it below the feathers and eyes, right where the middle and crease is. Leave it to dry.
6. Cut out a couple 1 inch strips of construction paper with the colour of your choice. Create a paper chain link. Attach it together with glue. Continue this until you're happy with the length of the dragon's body.
7. Cut out a triangle of construction paper, this will be used for the tail. Attach any paper, feathers to the end for the dragon's tail. Glue it to the end of the chain link. Attach the chain link with the tail to the second craft stick you painted.
8. Attach the front end of the chain link to the back of the 1st craft stick, which is attached to the dragon's head. Let it dry completely.
9. Add some glitter glue for finishing touches. Now you should have a beautifully crafted dancing dragon!
